Is it because we take things for granted once we have them? Do we get bored? What causes the lustre of the things to fade? What causes the WOW factor to diminish, and how can we keep the passion burning?.

Blizzard Entertainment's "newest" game is essentially the popular massive multiplayer online roleplaying game exactly as it played in 2004, right down to molasses-paced quest text, a dearth of quest markers, and enemies so tough that you feel compelled to group up with other players to beat them. Together, features like these made World of Warcraft 's earliest incarnation more social than its current form, and almost 15 years ago they helped lay the foundation for some of the most enduring friendships of my life. The next time WoW has an unfavorable content patch, people may just say "to hell with it" and play Classic instead. That means we may see the end of the WoW community that, much like people in the real world, has
