To put Google on your desktop, open Google in the normal way on your browser, and when it loads, click on the padlock/E sign you see at the beginning of the Google address on the address bar and drag. Which video-chat app is better for you, Google Meet or Google Hangouts? Find out their key differences and how to use each app.. (opens in new tab). If you like the idea of trying new tools first, there's also a beta channel available. If you're fully immersed in the Google ecosystem, using Chrome makes perfect sense. It ties in with your Google account, allowing you to sync settings and bookmarks between computers- and even different devices thanks to mobile versions of the browser. Available for Mac, Windows and Linux, as well as iOS and Android, Chrome's cross-platform support gives it access to a large number of users,

and it's little wonder that it proves so enduringly popular. Google Chrome is a free web browser developed by Google, used for accessing web pages on the internet. As of March 2022, it is the most popular web browser of choice worldwide, with more than 62% of the web browser market share. The current version of Chrome complies with more web standards than any other browser, and a frequent update cycle means that security issues and other bugs are knocked on the head quickly. By Staff Writer Last Updated April 05, 2020. Leaked Nvidia RTX 4090 price practically confirms our worst fears. Chrome's range of extra features, however, goes well beyond the basics. First, look for Hangouts in Google Apps in your Gmail inbox or visit [hangouts.google.com](https://hangouts.google.com) in a browser. When you're on the Hangouts dashboard, select "video call" and invite people by name or email. If the group call is already on, you can add more people by clicking the + icon at the top right-hand area of the screen. You don't need to worry about inviting all your contacts at the beginning. For Hangouts on smartphones, click the + icon, enter the guests' names or emails and press the camera icon to start a video call. Now, you're ready to begin a virtual party. What Is Google Meet? Google Meet has a free version of its video-call app, like

Google Hangouts. The difference is that the free version of Meet is for larger group video chats of up to 100 guests. It's helpful for remote offices that need to hold meetings with many employees. The free app also lets you share your screen, use real-time captions and view all guests on the call. If you find that there's a feature missing from Chrome, or you like the idea of adding extra functions to websites you use frequently, you have the option of using extensions to do just that, and there's a huge selection available in the Chrome Web Store.

Facts About Koalas: Habitat, Threats and Why They're Now Endangered. Google also offers "frozen" versions of Chrome for Windows XP, Windows Vista, macOS 10.6-10.9. This means that updates are not supported for these versions.
