Some of Venezuela's natural resources include petroleum, natural gas, gold, bauxite, iron ore, diamonds and hydroelectric power. Petroleum, as well as other petroleum-derived commodities, account for

Municipal bonds, often called munis, are considered a debt instrument because when the investor purchases one, he or she is essentially loaning funds to the authority that issued it. In exchange, the authority promises to pay interest, call.

Venezuela has a federal republic style of government. It is

under a constitution and has an elected president who serves as both head of government and head of state. The nation has a 167-seat unicameral legislature. Major products of Venezuela include food crops and livestock, equipment and machinery, transport and construction materials, medical instruments, chemicals, medicinal drugs, iron and steel commodities. Venezuela has four major physical features: the Maracaibo lowlands, the mountains that run along the western border of the country, the Orinoco plains and the Guiana highlands. The country has a number of islands.

Is investing in bonds a safe investment or not worth your time? Here's your guide to buying bonds as part of your investment plan.

**Bonds** The bond market is a massive part of the global financial system. In fact, it's almost twice as large as the stock market. Political strategist James Carville once said, "I used to think if there was reincarnation, I wanted to come back."

Venezuela is famous for many things, among which is oil, people, food and tourist attractions. Venezuela is one of the world's top oil producers, its major export. In fact it has 297 billion barrels of oil reserves.

Major products of Venezuela include food crops and livestock, equipment and machinery, transport and construction materials, medical instruments, chemicals, medicinal drugs, iron and steel commodities, crude oil and petroleum-derived products. As of 2015, Venezuela's oil industry constitutes the largest economic sector. Venezuela is said to produce 2.475 million barrels of crude oil on a daily basis, based on the 2013 estimate by the Central Intelligence Agency's World Factbook. Keep in mind that the price of a defaulted bond does not always go to zero. Investors can often expect some degree of recovery. Higher-quality bonds tend to perform better than lower-rated securities even during times of economic distress. This is due to the underlying issuers keeping sufficient financial strength to keep making their payments even under adverse conditions.
