One of the first .. Such an easy wind-down from this high. It was perfect for my session of relaxing, meditating and stretching after a cardio workout. Our Full Spectrum 1:1 Ratio tincture, of 500mg CBD and 500mg CBG, is derived from hemp and is hand grown, processed, and bottled with thoughtful and sustainable practices. It is grown outdoors rather than inside a facility, where the natural sunlight can help hemp increase its cannabinoid profile. We use the Co2 extraction method, which uses pressurized Co2 to pull the CBD, CBG and other cannabinoids and phytonutrients from the plant and provides a safe and pure product. As part of the extraction process, the cannabinoids are actually mixed with Coconut (MCT) oil as a carrier oil, which MCT oil is made up of fatty acids that are easily broken down in the liver, which provides excellent bioavailability and helps the body better absorb the cannabinoids. As always third party

tested in outside facility for quality and potency guarantee. More than just a brand, the Cultivar Collection represents an intimate elevation of our craft.
