Considering a Winchester/Miroku 1873 in 45 Colt and wondered if the action is strong enough for stout loads ie 300gr cast at 1400-1500. The Henry falls somewhere between the Uberti Model 1873 and the Marlin 1894C, although closer to the Model 1873 in price and overall impression. It is a very pretty rifle, considerably. Jul 03, 2013 · The 1886 is the better action design. Likewise, the 1892 action is a better design than the 1894. I think Marlin designs superior in that the bolt can be easily removed for. Oct 29, 2017 · BUT, I can attest to the strength of the Marlin 1894 and if the rifle is for hunting

purposes and you want to shoot some 'hot stuff' in it, I would go with the Marlin. Just my .02.. when I was considering buying one in .357 (which I did), I called Winchester and told them that I was not a case enthusiast but I shot a lot. I told "Matt" that I would be feeding it a steady diet of 158gr factory loads (which was not true exactly) and wanted to know if the action was strong enough to take it. He told me twice "you'll be fine". So I took that to mean that these guns are made to handle mainstream factory loads w/o a prob. Which makes sense. As far as the gun goes. I love mine, it's one of the nicest rifles I own. Can't imagine a 45 colt would be any different. Regards, Doc Dr. Bob Butcher, NCOWS 2420, Senator HR 4 GAF 405, NRA Life, KGC 8. Warthog Motto: Clean mind - Clean body, "I'll help you down the trail and proud to!" Rooster Cogburn. My 1873 holds 14 rounds of 250-grain, .45 Colt ammo in the magazine. When it's fully stoked and ready for trouble, you have 15 rounds to send after the bad guys. In contrast, even with the same length magazine, the '92 holds only 13 rounds. The toggle link action's lifter accommodates the extra round in the 1873. So, for sustainability in a fight advantage '73. However, the '92 is adapted from the model 1886 rifle, which had to

accommodate the .45-70 cartridge. So the '92 achieves its shorter overall length by incorporating an angled feeding system. This is more complex than the 1873's straight line feeding system, and it has more of a tendency to jam than the 1873. So, for reliability advantage '73. 1892 deluxe. Just not as many of them out there. cartridge and push it forward while the cartridge tilts down to level to enter the bore. 2. Trying to run the rifle really fast can result in stovepipe jams, as the cartridge doesn't always have time. In 1924, the Model 55 was introduced as a Model 94 variant until production ceased in 1932. Years of Production: 1892 to 1945 Identifying Features: Smaller solid frame with no sideplate, 1/2 oval loading gate is rounded on only one end, vertical locking bars, no elevator, no dust cover This model was essentially a scaled down version of the Model 1886. It was chambered for the same lower-powered cartridges as the Model 1873, plus .25-20, with the .44-40 cartridge being the most popular chambering. This model was destined for fame on both the small screen and the big screen in the hands of cowboys and outlaws alike. Even though the model was anachronistic in some westerns, that small detail was overlooked because of the rifle's ability to fire 5-in-1 blanks. Model 1892s can be seen in the hands of John Wayne's Rooster Cogburn character in Hollywood's. jamming. 2. This action is somewhat sensitive to overall cartridge length. Some of you will remember that I wrote extensively about this rifle a few issues ago. As I said then there were a couple of things I didn't like about it. One was the funky safety on the top of the receiver. I also did not like how rough and stiff the action was. I could have cured that with 20 years of constant use, but at my age, I didn't think I could afford the investment in time. So I sent the '92 off to Steve Young of Steve's Gunz..
